Sprint 3 Report

Actions to Stop:

- Not merging to the main branch
- Not completing tasks for current sprint

Actions to Start:

- Merging to GitHub
- Completing tasks for current sprint
- Updating scrum board when task progress changes

Actions to Continue:

- Completing tasks for MVP
- Styling for pages without styling
- Frequent communication

Completed Work:

- **#01: I, as a driver, want to charge passengers for my service so I can make some money.** [13 story points]
 - List payment info under carpool listing or user profile [1 hour]
 - Use API (e.g. Venmo) to allow for secure payment transactions. [3 hours]
- **#02: As a passenger, I need to be able to accept a driver's carpool offer so that I can get to my destination.** [8 Story points]
 - Update members of a carpool [1 hour]

Uncompleted Work:

- **#01: I as a passenger, I should be able to sort the trips by price so I can pay less.**[3 story points]
 - Create filter button in react native [1 hour]

- Make it so that carpool offers are sorted when filter changes [1 hour]
- **#02 I as a driver, I need to be able to remove passengers from my group should I wish to do so. [2 story points]**
 - Delete Passengers [1 hour]
 - Update offer in react native [1 hour]

Infrastructure:

- Frontend
- Backend
- Database
- Github
- Continuous integration
