<u>**RoadBuddy**</u>

Developed by **RoadBuddy Team**

Sprint 1 Report

<u>**Actions to Stop:**</u>
- Using Pyrebase library because we were having a lot of package issues.
- Focusing too much on the database structure.

<u>**Actions to Start:**</u>
- Implemented continuous integration (CI) on github to ensure everyone is following a standard style.
- Using Firebase admin python SDK.
- Documenting the design of database structure and the backend APIs in the README.md.

<u>**Actions to Continue:**</u>
- Setting up the communication link between the frontend and backend.

<u>**Completed Work:**</u>
1. **I, as a registered user, want the ability to login and logout as I wish.**
   a. Design the outline of the login page
   b. Design the logout button
   c. Create login and logout APIs

<u>**Uncompleted Work:**</u>
1. **I, as an unregistered user, want to register for the service so I don't have to enter my information every time I use the service.**
   a. Setting up the communication link between the frontend, backend, and database

<u>**Infrastructure:**</u>

- Frontend
- Backend
- Database
- Github
- Continuous integration
